General Meeting of all EU Institutions Staff
Tuesday, November 22

in the hall of the Berlaymont

Staff Regulations 2013

We demand that the Vice-President be equal to the task with which he has been entrusted, and act with the agreement of the staff that he should be defending

Together, with the Commission and the support of staff, let's present a reform package to the Council which will also be acceptable to the European Parliament

To do this, let us get negotiations restarted

On Wednesday 16th November 2011, negotiations have been interrupted. Despite the latter's proposals which are realistic, balanced and fair submitted to Vice-president Šefčovič by the United Inter-Institutional Front, he intends to present to the College a proposal to which the United Inter-Institutional Front has not given its approval.

Your massive presence will compel Vice-president Šefčovič to seriously consider the counter proposals developed by the united front of all staff representatives in order to protect the European Civil Service.

**Now is the time to act,
not just to "negotiate"**
