

Move More Sit Less

Why and How?

PART 3

Prof. dr. Jan Seghers
Department of Movement Sciences - KU Leuven

Jan.Seghers@kuleuven.be

In this presentation, you will learn...

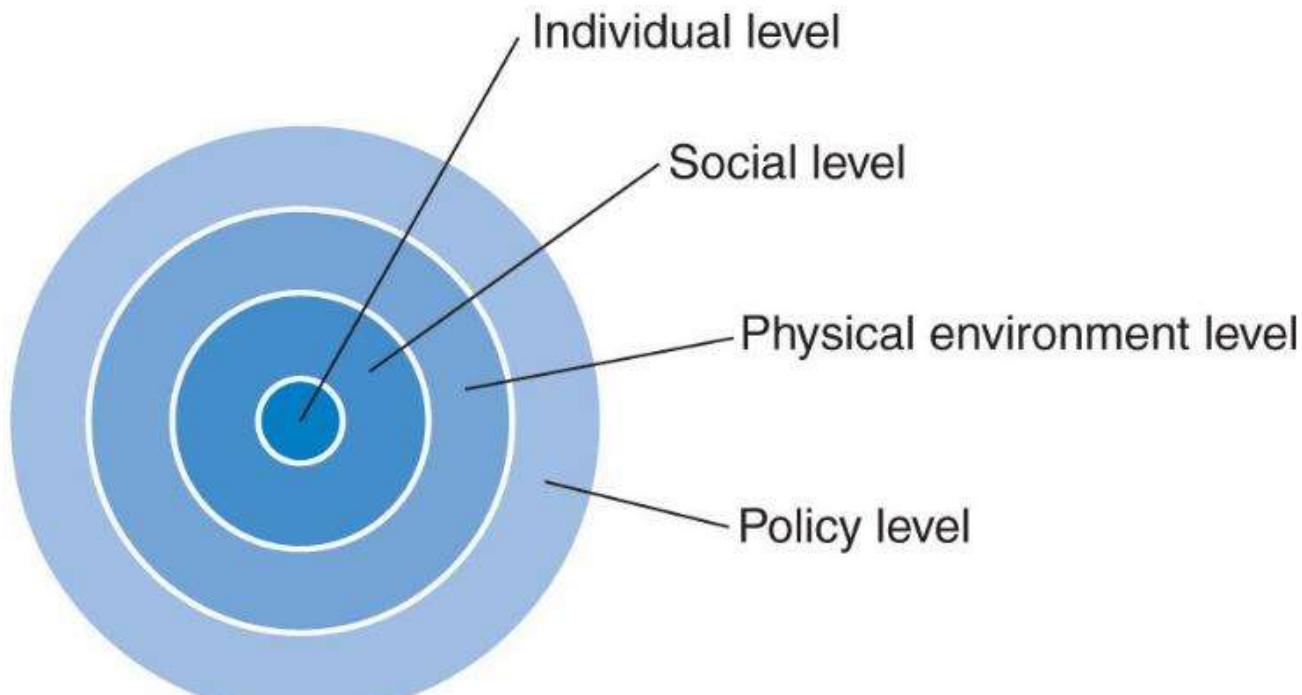

- *Why physical activity and sedentary behavior (i.e., too much sitting) are important behaviours for your health.*
- *How much physical activity is needed to boost your health.*
- ***How can we change our lifestyle?***

*Why are some people
physically active and others not?*

How can we change our lifestyle?

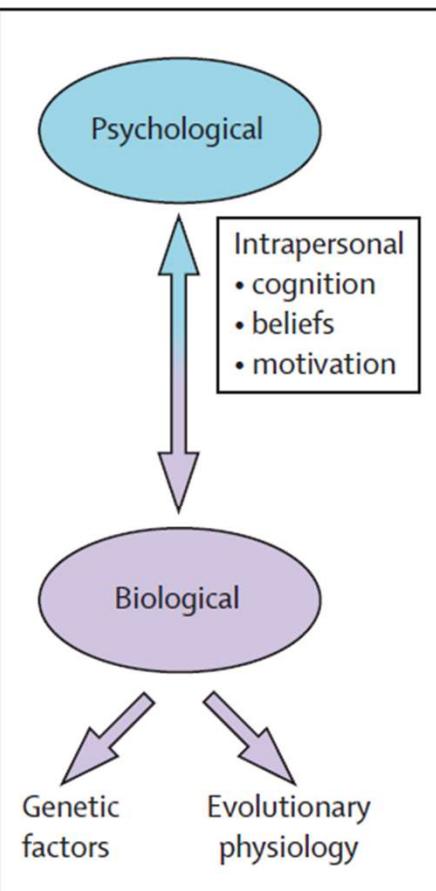

Behaviour change

Socio ecological model of the determinants of physical activity
